The inaugural Indonesia Miner, held on April 11 – 12, 2018 at The Westin Hotel Jakarta, Indonesia, represented an exciting new event for the country's developing mining industry. Over 400 delegates registered, 48 speakers and 20 exhibitors participated. Continuing the themes of the Regional Technical Conference series, Indonesia Miner 2018 examined ways in which the industry can enhance its development in Indonesia.

The event featured four conference streams: Indonesia Mining Projects, Surface and Underground Mining, Mine Haulage and Mineral Processing. It also included an exclusive exhibition showcasing the latest developments and technology.

An Industrial Networking Dinner hosted by Djakarta Mining Club and Coal Club Indonesia beautifully complemented our event.

The Conference Streams:

The Indonesia Mining Projects stream focused on the mining outlook for Indonesia, including government policies, investment opportunities and updated project showcases.

The Surface and Underground Mining stream explored the latest technological operational developments in blasting, safety, mine design, operation automation and reclamation. It also focused on improving efficiency and lowering costs in challenging underground mining environments.

Mine Haulage focused on real world solutions that help keep operations efficient, safe and profitable.

In the Mineral Processing stream, attendees learnt about recent developments, technologies and techniques for mineral processing. The technical program focused on practical methods of optimising plant processes to achieve better results from crushing, grinding, gravity separation, mineral liberation and tailing disposal.

Indonesia Miner 2018 is organized by the team behind the established publication and online news service that is The ASIA Miner. The same team also organises the Regional Technical Conference series, which includes Sumatra Miner as well as Djakarta Mining Club and Coal Club Indonesia.

This event was kindly supported by the Ministry of Energy and Mineral Resources of Indonesia, Ministry of Industry of Indonesia, Djakarta Mining Club, Coal Club Indonesia, Indonesia Smelter Enterprises Association (AP3I), Indonesia Mining

Professional association (PERHAPI), Indonesia Mining Services Association (ASPINDO), Australian Mining Chamber (AUSMINCHAM), Exploration and Mining Development Indonesia (EMD) and Australian Trade and Investment Commission.

Sponsors included Techenomics, Zitron, PT. ODG Indonesia, ADEN Indonesia, Feluwa, Aqseptence Group – Diemme Filtration, PT. Masmindo Dwi Area, Schneider Electric, Modular Mining Indonesia, PT. Agincourt Resources, ASEAMCO, PT. Freeport Indonesia, WEIR Minerals, Vermeer Indonesia, Mining Machinery Indonesia, Cranserco Dingo, Sharp Mapping, International SOS, Intecs, Coolon LED Lighting, Austin Engineering, Armila & Rako, Merdeka Copper and Gold and Epiroc Southern Asia.

This event was opened by a keynote speech from the Minister of Energy and Mineral Resources, Republic of Indonesia (Mr. Ignasius Jonan) and accompanied by Director of General Mineral and Coal, Ministry of Energy and Mineral Resources, Republic of Indonesia (Mr. Bambang Gatot Ariyono).
